

Riverbend University

Admissions FAQ — For Prospective Students

Applying to Riverbend University

Q: Do I need to create an account to apply?

No. Prospective students can browse program information, check eligibility, and get answers to admissions questions without logging in. You will only need to create an account once you begin a formal application.

Q: How do I check if I'm eligible for a program?

Provide your highest qualification and your aggregate percentage or CGPA, along with the program you're interested in, to the Admissions agent for an instant preliminary eligibility indication. Undergraduate programs generally require a minimum of 60% aggregate as a baseline; postgraduate programs generally require a minimum CGPA of 6.0 (60%) as a baseline. Some programs, such as Engineering and MSc Artificial Intelligence, have higher or subject-specific requirements — see the relevant prospectus for exact figures.

Q: How do I track my application status?

Use the reference number issued when you submitted your application. The Admissions agent can look up your current stage (e.g., Submitted, Under Review, Shortlisted, Offer Issued) and the date it was last updated.

Q: What documents do I need to apply?

Academic transcripts, a government-issued photo ID, a recent passport-sized photograph, and (for postgraduate applicants) a statement of purpose and two reference letters. MBA applicants should also include a resume.

Scholarships & Financial Aid

Q: How do I apply for a scholarship?

Riverbend University offers merit-based scholarships and need-based bursaries for both undergraduate and postgraduate students. Undergraduate applicants scoring above 85%, 90%, or 95% in their qualifying examination qualify for 25%, 50%, or 100% tuition scholarships respectively. Postgraduate applicants with a CGPA of 8.0 or above (or equivalent 80%+) qualify for a 50% tuition scholarship, subject to maintaining a minimum semester GPA of 7.0. To apply, submit the Scholarship & Financial Aid form on the admissions portal alongside your program application, or afterwards from your student account once enrolled. Scholarship decisions are communicated within 4 weeks of the application deadline.

Q: Are there scholarships for students with financial need rather than high grades?

Yes — need-based bursaries are assessed separately from merit scholarships and consider household income and supporting documentation submitted with the Financial Aid application. Need-based and merit awards can be combined up to a maximum of 100% tuition coverage.

Q: Is there a fee waiver for the application itself?

Application fee waivers are available for students who can demonstrate financial hardship. Contact the Financial Aid Office directly with supporting documentation before the application deadline.

Program & Entry Requirements

Q: What is the minimum score needed for Engineering programs?

B.Tech programs require a minimum of 65% aggregate in the qualifying examination with Mathematics and Physics as subjects studied.

Q: Can I apply with a Diploma instead of 10+2?

Yes, Diploma holders are evaluated on a case-by-case basis and generally need a minimum aggregate of 60% in their diploma program to be considered for undergraduate entry.

Q: Do postgraduate programs require work experience?

Only the MBA program has a preferred minimum of 1 year of full-time work experience; applicants without experience are still eligible via the Early-Career MBA track. Other postgraduate programs do not require work experience.

After You Apply

Q: How long does the review process take?

Most applications move from Submitted to a decision within 3–4 weeks of the application deadline, though entrance-test-based programs (B.Tech, BSc Data Science, MSc Artificial Intelligence, MBA) may take longer to accommodate the test and interview stage.

Q: What happens after I receive an offer?

Offer letters include an acceptance deadline and the enrolment deposit amount required to secure your seat. Once the deposit is paid, you'll receive instructions to set up your official student account and portal access.
